

Provide More Value.

A Superior Ice Melt

Not all ice melt blends work the same. We've built a blend that works all winter in a variety of applications and situations. TruMelt, manufactured by AgSalt is truthfully labeled, competitively priced, and much more potent than traditional market blends.

Large Inventory

Anyone can serve a customer pre-season, but when supply is low and demand is high, you need a supplier to depend on. TruMelt's strategic production and inventory management guarantees access to 90% additional product from pre-season purchases for the winter rush.

Commitment to Service

We strive to be the best in the industry, with a superior product and short lead times of 3 days or less. With responsive customer support and strong delivery systems, we provide a reliable source of premium ice melt.

Value That Delivers

Full Ingredient Disclosure

The ingredients of our top-quality TruMelt blend are fully disclosed. We don't hide the ingredient inclusion rates or use false marketing claims to fool the customer into buying low-grade or lesser quality products. Instead, we educate on the real performance of ice melters.

Purer Product

TruMelt's base ingredient is solar salt with 99% purity. This greatly reduces tracking because there is no dirty rock salt. TruMelt includes only the best quality magnesium pellets and calcium flakes.

Free Flowing

For better flowing efficiency, TruMelt is thoroughly dried, screened, and sized. This removes fine particles and large crystals to avoid dusting, clumping, or clogging spreaders. A flowing agent is also added to avoid clumping. Because it is clump-free, TruMelt is easy and efficient to apply.

TruMelt™

DETAILS	TruMelt 3% 50# Bag	TruMelt 10% 50# Bag	TruMelt 12% 50# Bag	TruMelt 20% 50# Bag
Melting Performance	0°F	-10°F	-20°F	-12°F
Concrete Protection	Fair	Good	Better	Best
Slip and Fall Safety	Fair	Good	Best	Better
Free Flowing	Best	Best	Best	Best
User, Turf and Pet Friendly	Good	Better	Fair	Best
Clean and Non Tracking	Good	Better	Good	Best
Active Ingredient	Magnesium Pellet	Magnesium Pellet	Calcium Flake	Magnesium Pellet
PROS	<p>Safer for user, pet and vegetation than calcium based products</p> <p>Economical</p>	<p>Increased concrete protection against freeze/thaw cycles</p> <p>Safer for user, pet and vegetation than calcium based products</p>	<p>Increased concrete protection against freeze/thaw cycles</p> <p>Superior melting performance</p>	<p>Increased concrete protection against freeze/thaw cycles</p> <p>Safer for user, pet and vegetation than calcium based products</p>
CONS	<p>Melts effectively only to 0° F</p> <p>Greater risk of concrete damage</p>		<p>Calcium may burn skin of user and pet paws</p>
